CMPT 379
Compilers

Anoop Sarkar

`http://www.cs.sfu.ca/~anoop`

Wrap Up

- Analysis/Synthesis
  - Translation from string to executable
- Divide and conquer
  - Build one component at a time
  - Theoretical analysis will ensure we keep things **simple** and **correct**
  - Create a complex piece of software

Lecture 1: Why take this class?

- To learn parsing techniques that can be applied elsewhere
- To see how theoretical analysis is applied in practice and how it helps design of complex systems
- To gain an appreciation for language design
- To observe important aspects of software engineering
